PURE FORWARD THE LEVY!-This is with us the duty of the moment. On the banks of the Reppalannock the duty of the moment is to · igage and ranquish the enemy; but here it 1; to collect additional troops and despatch them to the field. This is at present our duty. Let us do it with the utmost energy, leaving our brethren on the banks of the Rappahannock to do theirs in like manner. Let us att and first and foremost to the duty which belongs to us. Let us not neglect to do our duty out of curiosity or anxiety as to how they will do theirs or as to whether they will do theirs or not. Let not the magnitude of their duty not stand us if spell-bound by the particular emilict, mighty and eveutful though it be, now impending or occurring in the field. We ourselves have an instant and urgent duty to perform. Let us perform it like men, and not omit or forget it like children. Our duty is nowise dependent on the issue of

he great battle to which the thoughts of all are now involuntarily turned. The contrary rather is true. If our armies win that battle as we confidently believe they must, additional troops will be needed to follow up the victory and consummate the overthrow of the rebel power; if our armies lose the battle, which we cannot apprehend, additional troops will of course he needed to check the defeat and conreit it at the earliest moment into victory. Whatever may be the immediate issue of the battle, additional troops will be needed, and their presence or absence will govern materiply the ultimate result.

Yo one will suspect us of underrating the importance of this battle, but they who imagine that it involves the fate of the country are greatly mistakeu. If the rebels lose it, we believe indeed that their guilty cause will be lost; but, if they win it, the cause of the country will not be lost. It were an insult to God and a libel on the people to suppose the

We will chooves us to he collecting our energies for the next battle justead of waiting passively for the issue of the present one. And we call upon very patriot in the laud so to exert himself. We must not amid the excitement of the moment lose sight of the true proportions of the truggle in which we are engaged.

Minucsota are shocking. They are horri ble. Human nature revolts at them. It is said that more than 500 men, women, and hildren, have been killed within the last two or three weeks, the bodies being mutilated and mangled according to the savage customs of the last generation.

This is the devilish work of the rebels. The Minnesota Indians are stated to have been directly justigated to their hellish deeds by the secessionists of Missouri. Aud, even without each direct instigation, the massacres would naturally and necessarily have resulted, sooner or later, from the policy, adopted by the auhorities of the rebel Confederacy, of muster ing the savages into their service in this re pellion. By false promises and vengeful threats, thousands of Indians in Arkansas and on its borders were impelled to grasp their omahawks and scalping-knives and to go hooping, killing, and scalping under the rebel banner, and of course the Minnesota their brother savages and rendered insane by trifling pretext or uo pretext at all, begun the work of horrid murder upon the whole population within their reach.

This rebellion will prove to be the guiltiest and most accursed thing in all the world's dark

Albert Pike regigns his command in Arkansas on the ground that he is unpopular with the Indians, and fat. He must be afraid that his brother savages, if they should get hungry, might eat him. The rebel Confederacy, even if it were

He has great energy, and it is well directed. He comprehends the work he has to do, and he does it thoroughly. He doesn't play with rebels. He has no leisure for it. He has no taste

Col. Foster recently set a healthy example at Caseyville. The guerillas entered the town and robbed several of the Uuion men Promptly Col. The robbers have not appeared in the neighborhood since and it is said they are not expected.

Unioutown is a nest of rebel sympa hizers. Col. MAN SHOT BY A FEMALE .- At a ball at the corner of Market and Seventeenth streets, on Monday evening, a young woman named Kate Messenger took offence at the conduct of a young man named Michael Hyland. About noon yesterday the parties met near the corner of Tenth and Main streets, Hylandbeing upon a dray and the young woman upon the sidewalk. Hyland observed that the young woman's gestures were of a threatening nature, and endenvored to screen himself behind a companion with whom he was riding. The girl was not to be thus thwarted, however, and ordering Hyland's companion to stand aside, which he had no sooner done than the young woman drew a pistol and fired upon Hyland, the ball entering his right side, inflicting a puinful though not a dangerons wound, There are many rumors as to the origin of the

affair and also as to the details of the unfortnnate occurrence, one informant stating that Itylaud fired at the girl first; but the facts will doubtless be brought out at the examination, and we do not deem it proper to make a statement that would result to the prejudice of either party. Miss Messinger was greatly agitated when in the act of firing and swooned away after she had done the dreadful deed. She was taken into custody by Officer Sayers and lodged in jail. Hyland was removed to his residence, on Eleventh street, near Main. He was emplayed in Mr. Lawrence Anderson's tobacco factory. Miss Messinger, who resides on Twelfth street, near the Methodist Church, was employed in Mr. Willett's tobacco factory, on Third street.

A LITTLE MISTAKE .- It is generally known their funds through the Collector of the Port | months; this was previously enjoyed by some of Louisville; and in this way immense sums of the banks under special laws. of money pass through our Custom-house officer's hands. A paymaster made formal application recently to that officer for a stipulated sum of money, which was arranged in packages and placed in the paymaster's safe, the Collector demanding and receiving the receipt of the paymaster for forty thousand dollars The astonishment of the paymaster may be imagined when he discovered on his arrival at Corinth and upon nn examination of his safe that it contained, not forty thousand dollars, but two hundred thousand dollars-the result of a little mistake that had been made somewhere.

COL. SHANKS'S CAVALRY REGIMENT .- Only a few days ugo we aunounced the organization of the field officers of this, the Twelfth Ken tucky Cavalry, and we are now more than gratified to learn that it lacks only a few com panies to make it complete. This is the result of having the right men in the right place They are all Green river men. Col. Shanks i au old citizen of Hartford, and has seen service Lieutenant-Colonel Lightfoot lives in Hancock county, Major Kinney in Henderson, Major Proctor at the Mammoth Cave, and Major not have been made, and we predict for their regiment the highest distinction. Those wishing to join this very popular regiment will report to Hartford, where they will be received and fully equipped at once.

THE MORGAN RAID .- We learn by letter from a good source in Glasgow that a company of fifty of Morgan's men visited the town o Scottsville, Allen county, on Monday, making several arrests and carrying off a large quantity of goods from the stores of Brown & Carpenter, Woodcock & Co., and J. W. Hooter. They reported in the afternoon, before night. Morgan is at Hartsville with his entire him are arriving constantly.

Gen. R. W. Johnson was paroled for forty days to effect nn exchange. Ho may be expected in this city soon. There was great excitement at Glasgow, and there were no troops nearer that place than Munfordville.

The pass system adopted in this city does not seem to give general satisfaction. I is suid that it proves a great annoyance to travellers, while no good end is accomplished by it. Any applicant may obtain a pass to leave the ity, but passes are rarely examined, and we are nformed that as many persons leave the city by railroad and steamboat without passes as with them. The system should be rendered effective or it should be abolished altogether.

ARRIVAL OF PRISONERS .- The following persons were committed to the Military Prison an ontrage on private opinion and a coercion yesterday: M. L. Swindler, C. H. Shively, M. which refused a man the liberty of thinking. Walker, J. G. King, Ed. Connell, Newton Mr. Underwood's proposition was carried, and Bray, J. H. Watson, J. B. McCoy, R. M. An- grossed rider, compelling every teacher, public derson, G Bancroft. J. H. Vellitoc, D. J. or private, to take the contemplated oath, but Thompson, T. F. Grnning, R. L. McKee, W. the Honse refused to entertain it. 1 regret Higgins, and H. M. Bullitt.

BIO APPLE .- We have received from Mr John Alford's farm an apple of the species "Gloria Mundi with a card labelled "A big upple for the big Union gun. It is certainly big enough to fit a gun of big calibre, and, it npples in Eden were half as tempting to the eye, very little persuasion on the part of the devilish snake or the snaky devil can have been necessary to induce her to pluck and eat.

DELICIOUS PEACHES .- We have to thank our friend Dick Moore for another basket of fine peaches, the largest we have seen and the most delicious we have tasted during the present season. There is no better fruit depot than Moore's. He has just received five barrels and ten bushels of as noble plum peaches as ever reddened in the sunshine and marked the hue of beauty's check.

REMOVAL OF PRISONERS .- The military prisoners now held in the prison at the corner of Fifth and Green streets, will be removed today to the new prison, at the corner of Tenth street and Broadway. The old prison will be occupied for the present by Capt. Mellarris's new companies of Provost Guards.

Special Correspondence of the Louisville Journal. LETTER FROM FRANKFORT. ROOM No. 40, CAPITAL HOTEL, FRANKFORT, August 26, 1862. The disaster which befell Colouel Mercalfo

and his command in Laurel county, on Saturday last, has shown the impossibility of handling cavalry recruits mounted on raw horses. There never were a braver set of men banded together than the command of Col. Metcalfe auxiety to meet the enemy and confidence in being able to rout him, despite this superiority in numbers, were the animating impulses of every man, but at the first discharge of artillery the horses become wild with affright, and the riders lost all power of restraining them, us they broke away madly. A cavalry recrui upon an unbroken horse, is as helpless an obect as can be imagined; but that is not the vorst, he is more dangerous to his friends than his foes. If he uses his sabre he is as likely to hit his neighbor or to slush his horse's head us o damage any opponent; and so with his earbine or pistols, while his animal is curvetting demivolting, and shying ho cannot take aim, as ho may have it diverted just as he pull rigger. I make these remarks in justice to ol. Metcalfe and his men. The officers who rode trained horses were able to maintain the

field and behave gallantly, but they were powerless to control their men mountd on panic-stricken animals. We may draw an instructive lesson from this disster, and induce the Legislature to place all the militia reserve of the State in camps and under drill. One month's such service would be worth all the money it costs and prevent the courrence of such lamentable affairs. "As I prophesied," correspondents are always true prophets, you know, when their

messes hit the mark-the Senate could not screw its courage to the sticking point," and ake the responsibility of endorsing the House vill to repeal the bounty for the scalps of volves, foxes, and wildcats. The country i afe, as long as the "conservative branch of the Assembly can exhibit such care of the onstitutional rights of the scalpers and such defiant attitude against "the varmint." The senate passed a resolution to adjourn on Thursday, the 28th inst., to reassemble on the econd Thursday of January next; and as the Honse this morning refused to rescind the esolution excluding all local bills from conideration, it looks like the quick despatch of isiness and a return to our homes. The House passed an important bill this norning, creating the office of corresponding Secretary of State and allowing the officer a dary of one thousand dollars, a sum most inadequate to procure the services of a proper from centleman, whose correspondence at this time could comprise a full history of Kentucky's osition during this war. Messrs. Burns, Garnott, Hampton, Lisenby, signalized their coursy to Gov. Robinson by voting against this

Mr. Curtis offered a resolution instructing the Military Committee to report a bill providing or the exchange of Home Guards and other risoners now with thorebels, who are on no egnIar roll of Federal soldiers, and cannot herefore be exchanged by the United States overnment. The House, after a debate on he bill from the Committee of Ways and Means creating a Volunteer Relief Fund, reerred it to the Committee on Claims, where I ear it will sleep for the present session. It is ery difficult to prepare a measure looking to the relief of the families of volunteers which will suit every member's opinions, and there should therefore be a compromise on some scheme, and it seems to me that there cannot be a better one than the carefully matured bil of Mr. Harrison Taylor. I hope the Committee on Claims will take my view of the matter While our brave sons are volunteering the

State should provide for the support of their amilies, and not leave it to private charity. A resolution was reported by Mr. Underwood from a special committee providing for the election of city officers in Henderson. The preamble implied a censure upon Lieutenant-Colonel Foster as having, "without authority of law." interfered with the municipal officers &c. Mr. Poindexter moved to strike out these words, and Mr. Bell proposed to strike out all leaving, that the whole force would return that the preamble. Mr. Turner addressed the llouse in favor of the prenuble, and thought it force, amounting to 2,000 men. Recrnits for high time for the Legislature to assert its dis pproval of all military usurpation. Mr. Bel did not think the General Assembly ought t express an opinion as to the truth or falsity of acts concerning which there was no-legal proof or any evidence whatever heroud simple assertion. It would be manifestly improper.

The preamble was stricken out and the resolu tion passed. The act to compel all public school-teachers and officers of incorporated educational institutions to take an oath of fidelity to the Government came up for consideration on the unc tion of Mr. Underwood to strike out the words that made it retroactive. A very spirited debate ensued. Mr. Huston made one of the most effective speeches of the session, and Mr. Cochrane, of Shelby, one of the most remarkable, as he argued that a compulsory oath was

RETURN OF PRISONERS .- We learn from the New Albany Ledger that the one hundred and fifty men of the 50th Indiana, recently aptured in detached squads of ten to forty have all been paroled, and a portion of them arrived in that city yesterday. The cuptured men had been detached, in squads of from ten to forty, to guard the ruilroad and bridges from Nushville to Edgefield Junction. Morgan's men, to the number of four to six himlred, came upon the railroad a few miles from Nashville, and afollowing it up, surrounded each squad, and captured the whole force by detail. The men were taken along with their cuptors toward Edgefield Junction, where the ebels expected to easily capture the force tationed there under Capt. Atkisson, and thus be able to take the down trains as they arrived, destroy the water tanks, and blow up the road bed. In this expectation, however, they were disappointed, Capt. Atkisson meeting them, and after repulsing their attack three times, finally drove them off altogether

Mone of HINDMAN'S TROUBLES .- The Memphis Union Appeal of the 22d inst. says ilmt on the morning of the 15th instant, the Texan Rangers in Hindman's command, near Little Rock, threw down their arms and broke out in open mutiny, clainoving for their pay Hindman refusing them, and taking a positiv stand against the insubordination, they charged the battery from which he addressed them, firing as they went. There was a very general calling on our Minister, Ilon. A. A. Burton, of your State, and very pleasantly were we entertained by him and his lady. We have no secessionism here. Every American I know of is "flat-footed" ou that subject, and the natives here are beginning to see who are their true friends. The "Stars and Stripes" that floated from the balcony of the Legation on the Fourth is the emblem that alone can shield them from foreign aggression.
